Dear Alireza,

After almost seven years managing the ICDL Asia office in Singapore, at the end of this month I will be relocating to Ireland to take up a new role in ECDL Foundation's Dublin office, with responsibility for establishing channels into new markets in Asia, Africa and Latin America, including the establishment of a dedicated ICDL Africa operation.

Tina Wu, who has been involved in the ICDL programme in Asia since 2006 and who has most recently been responsible for the very successful implementation of the programme in Singapore, is stepping into the position of General Manager of ICDL Asia. She will be taking on all responsibilities previously held by me in this position.

I have worked with Tina for many years, and I know she will be an excellent advocate and diligent administrator of the ICDL programme, and a strong supporter of your activity in future.

The structure and responsibilities of the rest of the ICDL Asia team remain unchanged.

I would like to thank you for all your support over the past years, and your continued commitment to the ICDL programme.

Yours sincerely,

Daniel Palmer
General Manager
